Let's Add and Subtract

Jay volunteers weekends
at the **Doggy Day Care.**

A collection of wooden blocks with numbers and symbols, colored pencils, and a marker on a white surface. The blocks are scattered around the text, with some showing numbers like 1, 2, 3, 4, 5 and symbols like a plus sign and an equals sign. A black question mark is drawn on a white square block. A silver marker with a black tip is positioned at the bottom right. Several colored pencils (blue, green, yellow, red) are also visible.

He uses **math** to help him
do his job.

How many dogs will be at
Doggy Day Care today?

Jay checks his **planner**.

**Today is Sunday.
Let's count the
dog names.**

WEEK

Sunday

Sid
Twiggy
Toby
Bear
Willy
Riley
Shay
Tess
Poppy
Pete

Monday
