Letter from the Presidents

Dear Educators, Parents, and Students,

In today's rapidly evolving world, the challenges facing young people are unlike those faced by any previous generation. At Sussman Education/Lightswitch Learning, we are deeply committed to supporting the academic, social, and emotional success of every K–12 student. We recognize that students are growing up in an increasingly complex world—one filled with remarkable opportunities as well as new challenges.

In an age of constant connectivity, students are surrounded by an endless stream of information and distractions that can make it difficult to stay focused, build meaningful relationships, and remain present. At the same time, many families are balancing demanding schedules, making quality time together more important than ever. These realities reinforce the need to help children develop mindfulness, resilience, empathy, and strong character alongside academic achievement.

As we prepare students for a future in which many of tomorrow's careers have yet to be imagined, success will depend on far more than academic knowledge alone. It will require adaptability, creativity, compassion, critical thinking, and perseverance.

We believe that great literature is one of the most powerful tools for helping students develop these qualities. Our carefully curated collection features inspiring, culturally responsive books by authors and changemakers whose lives reflect courage, determination, and hope. Their stories do more than educate—they encourage students to dream bigger, overcome obstacles, and discover their own potential.

Every child deserves to see themselves reflected in the books they read. When students encounter diverse voices, experiences, and perspectives, they gain confidence, develop empathy, and recognize that their unique backgrounds are strengths to be celebrated. These stories help young readers understand that character, kindness, resilience, and determination can shape their future as much as any academic lesson.

Our commitment is to provide educators and families with resources that not only educate but also inspire, empower, and spark meaningful conversations. Together, we can help students become thoughtful, compassionate, and confident individuals who are prepared to meet the opportunities and challenges of the 21st century.

Thank you for your continued partnership and for all you do to support the next generation of learners.

Together, we can help every child discover the confidence, character, and curiosity to thrive—in school, in life, and in whatever future they choose to create.

Warm regards,

Steve and Ron Sussman

Hal Elrod, Author

Hal Elrod is living proof that every single one of us has the ability to overcome our adversity and create the most extraordinary life we can imagine. At age 20, Hal was hit head-on by a drunk driver, died for six minutes, broke 11 bones, suffered permanent brain damage, and was told he would never walk again. Defying the diagnosis of doctors and the temptations to be a victim, he has gone on to become a Hall of Fame business achiever, ultramarathon runner, multiple-time #1 best-selling author, hip-hop recording artist, husband, father, and international keynote/motivational speaker.

Brianna Greenspan, Author

Brianna Greenspan has been using the power of positive affirmations for the past 13 years to overcome physical challenges brought on by being born with a chronic invisible illness. When Brianna decided that the labels and limitations of her medical team did not align with what she believed to be possible for her life, everything began to change. Instead of being held back by neck braces, surgeries, and countless doctors' visits, Brianna completed her first 10K and hiked Half Dome at Yosemite National Park.

Brianna is living proof that the power of positive affirmations coupled with extraordinary faith and immense effort really can overcome the biggest obstacles.

In spite of personal health battles and previous limiting beliefs, Brianna made a decision to see the word *impossible* as *I'm possible* has propelled her to reach new levels of achievement. By incorporating the *Miracle Morning* into her life and by embracing the mindset that with a commitment, she could achieve anything, she was able to adopt a new outlook. No longer would she see herself as a person held back by limitations.

Domingo Zapata

Domingo Zapata is a world-renowned Spanish-American artist born in Palma de Mallorca, Spain. Currently, he maintains studios around the world. Zapata paints in both oil and acrylic, often incorporating mixed-media, collage, and graffiti. Known for his signature “Polo” series, which first gained him critical acclaim, more recent work focuses on themes including his native Spanish culture and American Pop icons. He also often draws on his experiences as a songwriter (Zapata co-wrote lyrics for Michael Jackson and Jon Secada), and he exposes his deeply poetic imagination by incorporating text and visual cues into many of his works. In both his art and in life, Zapata is motivated to give young people the inspiration to realize that “you don’t have to be famous to create art and that dreams can come true with hard work.”

Did you know that three out of four elementary and middle school **students have been bullied?**

When it comes to bullying prevention, one of the greatest challenges is distinguishing between what is and isn't bullying.

Whether a student is being harmed physically or with words, parents and caregivers must be equipped to help their children identify and cope with bullying behavior while taking the necessary measures to make sure it stops.

Information, Tips, and Activities to Address and Prevent Bullying Behavior

Here are some facts you should know:

Bullying facts:

Did you know?

- It is hard to stand up to a bully, because you may think the bully is stronger or braver than you are, but the truth is, usually the bully is not very confident inside.
- Kids think that telling an adult about a bully is "tattling." It is not. It is the right thing to tell an adult.
- Every 7 minutes, someone is bullied on a school playground.
- Bullying can happen in any grade – even kindergarten.
- Kids who bully others think it will help them be "cool" or fit in – it doesn't.
- Kids who are bullied are twice as likely to feel afraid to go to school.
- According to a survey of 1,500 students, half said they have seen someone else being bullied.
- Kids who see bullying may keep quiet because they are afraid they will be bullied, too.

Remember: bullying is NEVER okay!

WHAT BULLYING IS NOT

Q: Are there different kinds of bullying?

A: Yes, there are four kinds:

- PHYSICAL** – hitting, kicking, biting, pushing; also taking someone's stuff
- VERBAL** – name-calling, teasing, making fun of a person
- EMOTIONAL** – telling lies about someone; spreading rumors; excluding someone
- CYBERBULLYING** is a type of "emotional" bullying. Cyberbullying happens online when someone posts something mean or embarrassing about another person on Facebook, for example; or when someone spreads lies through email or text messages.

Q: Is it bullying if someone is mean ONCE?

A: No. Bullying is when one person **repeatedly** picks on another person. Bullying may happen every day or every week, for example.

Q: Is it bullying if someone just wants to be alone or chooses another best friend?

A: No. Bullying is **intentionally** being mean or harmful.
